Morticia [∞p] 11/1/2019 12:52 AM
This is the first meeting of the @Crimson Assistants!

Deleted User 11/1/2019 12:52 AM
cool

Morticia [∞p] 11/1/2019 12:53 AM
We will discuss methods of getting players to join our server.

First of all, what's Enders?

It looks like a clan we might need to eliminate.

in order to remove competition

Deleted User 11/1/2019 12:53 AM
it sounds really gay

I have never heard of `Enders`

its some clan

its not very popular then

or i live under a boulder

Morticia [∞p] 11/1/2019 12:54 AM
Alright, I asked Rodmous

It was made in October 2018 and is an insignificant clan

Deleted User 11/1/2019 12:55 AM
why not change this place name to "Naked Apron Alliance"

Morticia [∞p] 11/1/2019 12:55 AM
I might get EnderMomandNate (the owner)

@Deleted User no

this is a serious server

Deleted User 11/1/2019 12:55 AM
OK

Morticia [∞p] 11/1/2019 12:55 AM
I have an idea regarding the Enders clan

Deleted User 11/1/2019 12:55 AM
What's your idea

Morticia [∞p] 11/1/2019 12:56 AM
Suggesting an alliance (to absorb it) will get us more members

and get the first goal, while also eliminating that clan

Deleted User 11/1/2019 12:56 AM
intresting idea

how about just leave them alone and just do our own thing

Morticia [∞p] 11/1/2019 12:56 AM
no

the presence of a popular clan and an active member in it might get more people to join it
instead of our clan
I suggest all Crimson Clan members use a tag on TF

Deleted User 11/1/2019 12:57 AM
ok

what tag

Morticia [∞p] 11/1/2019 12:58 AM
/tag set &8[&4Crimson&cClan&8]

Deleted User 11/1/2019 12:58 AM
Ouch

Morticia [∞p] 11/1/2019 12:58 AM
or &4C&cC

instead of CrimsonClan

Deleted User 11/1/2019 12:58 AM
I could put that in sorta hard but

Morticia [∞p] 11/1/2019 12:58 AM
CC?

Deleted User 11/1/2019 12:59 AM
my nickname is ≫Black Redstone Magic≪

Morticia [∞p] 11/1/2019 12:59 AM
Oh I see

how about Crimson Clan Magic

or Crimson Redstone Magic

Deleted User 11/1/2019 1:00 AM
Yea The last one sounds good

it

won't

fit

Morticia [∞p] 11/1/2019 1:05 AM
oh

Not even &8[&4C&cC&8]? (edited)

Morticia [∞p] 11/1/2019 1:16 AM
also @Video check #requests and react to the checkmark

Morticia [∞p] 11/1/2019 3:37 AM
I believe we need a more aggressive method of advertising

@Crimson Assistants any suggestions?

Deleted User 11/1/2019 3:37 AM
signs

signs everywhere

signs on heads

signs on legs

and signs on your dick (edited)

7 dimensional signs

we must let the extraterrestrials and the extradimensional know about our existence

yes we must

Morticia [∞p] 11/1/2019 3:39 AM
signs are a good idea but we might get banned on TF and considered a rogue group

Deleted User 11/1/2019 3:39 AM
yea
books
hey I know
i can make books
OP WEAPONS

Morticia [∞p] 11/1/2019 3:39 AM

Op crates

Morticia [∞p] 11/1/2019 3:40 AM
+We have a premium relic in the shop that gives these items

Deleted User 11/1/2019 3:40 AM
>relic

Morticia [∞p] 11/1/2019 3:40 AM
this means we can make OP items for these relics and distribute them (edited)
yes @Deleted User relic

Deleted User 11/1/2019 3:40 AM
relic.

Morticia [∞p] 11/1/2019 3:40 AM
and put the invite link and clan info there
I can't get on PC right now so someone else will have to do that

Deleted User 11/1/2019 3:41 AM

Morticia [∞p] 11/1/2019 3:41 AM

Deleted User 11/1/2019 3:41 AM

Deleted User 11/1/2019 4:51 AM
I was trying to get a old op crate

Morticia [∞p] 11/1/2019 4:51 AM
Oh alright

Deleted User 11/1/2019 4:51 AM
I got an old version but yea

Morticia [∞p] 11/1/2019 4:52 AM
Actually I could write you a give command

paste it in a command block in 1.14.4 singleplayer

save the item to hotbar

Deleted User 11/1/2019 4:52 AM

I know

I was searching around my op item world

You on currently?

Morticia [∞p] 11/1/2019 4:54 AM

No

actually I am

Deleted User 11/1/2019 4:58 AM

Morticia [∞p] 11/1/2019 4:59 AM

Deleted User 11/1/2019 4:59 AM

Morticia [∞p] 11/1/2019 4:59 AM

can you screenshot the item

Deleted User 11/1/2019 4:59 AM

It's hard to show you the stuff on this armour

Deleted User 11/1/2019 5:59 AM

Deleted User 11/1/2019 6:50 AM

Morticia [∞p] 11/1/2019 6:59 AM

Deleted User 11/1/2019 7:17 AM

Deleted User 11/1/2019 7:26 AM

Morticia [∞p] 11/1/2019 9:30 AM
Alright @Crimson Assistants we have a problem

Nico has turned against us

It seems

Deleted User 11/1/2019 9:30 AM
yes

we will execute her (edited)

make a purgatory channel

Morticia [∞p] 11/1/2019 9:31 AM
No

Time to get serious

Deleted User 11/1/2019 9:31 AM
where she must send 1000 messages to be freed

no wait 10000

Morticia [∞p] 11/1/2019 9:31 AM
Noah I said this is serious

Deleted User 11/1/2019 9:31 AM
ok

Morticia [∞p] 11/1/2019 9:31 AM
We need to eliminate the threat or minimize it

Deleted User 11/1/2019 9:31 AM
Eliminate? You found the right person

Morticia [∞p] 11/1/2019 9:31 AM
advertising when Nico isn't on or advertising via discord dms is a good way

for minimizing the threat

Deleted User 11/1/2019 9:32 AM
Ill get her offline for now

Hey nico theres people on kaboom that are discussing trying to take down TF you should check it out

like this?

Morticia [∞p] 11/1/2019 9:33 AM
no

that won't get her off for lon

long

Deleted User 11/1/2019 9:33 AM
itll get SOME time

Morticia [∞p] 11/1/2019 9:33 AM
just pm random people to add you on discord

Nico's furry brain won't understand what you're doing

Alright that's all

Deleted User 11/1/2019 9:36 AM
We will need help to do this onhe

one

ill distract nico while you guys post a invite in chat. she wont have enough reaction time to remove it if i argue with the furryfuck (edited)

SHE LEFT

Morticia [∞p] 11/1/2019 9:38 AM
alright

post the invite then

Deleted User 11/1/2019 9:43 AM

Morticia [∞p] 11/1/2019 9:44 AM

you just sent the link multiple times in 10 minute timespan

Deleted User 11/1/2019 9:44 AM

Morticia [∞p] 11/1/2019 9:44 AM
idk

she told me you didn't

Deleted User 11/1/2019 9:45 AM
last time i posted it was around 16:34

the time before that was 16:24

Morticia [∞p] 11/1/2019 9:47 AM
maybe Nico was just annoyed

Morticia [∞p] 11/1/2019 11:48 PM
@Crimson Assistants Hi, this is another meeting (edited)

We should consider DM advertising instead as the most reliable method of advertising

@Deleted User Any weapons you made fall under the advertising per hour rule somehow and as such are unsafe

Armor should be safe

I think

or we might just create a thread for our server

Deleted User 11/2/2019 12:57 AM
Hmm

Morticia [∞p] 11/2/2019 1:18 AM
Anti-piracy measure for custom armor sets: every armor piece has a negative health attribute (so you get 0 max hp) and the same UUIDMost and UUIDLeast; a "key" item has the same attribute and UUID, but with a positive value; this overrides the armor's negative health and allows you to pvp normally

Do not leak this

Deleted User 11/2/2019 1:23 AM
Or just use nbt explorer to rename the attribute

Morticia [∞p] 11/2/2019 1:23 AM
Noah not everyone knows that

Deleted User 11/2/2019 1:23 AM
kk

Morticia [∞p] 11/2/2019 1:24 AM
most ppl in TF will just use the item and then complain it doesn't work (without the key)

Deleted User 11/2/2019 1:24 AM
whats the key for

Morticia [∞p] 11/2/2019 1:24 AM
it removes the hp debuff

Deleted User 11/2/2019 1:24 AM
ah ok

Morticia [∞p] 11/2/2019 1:24 AM
aka the fact wearing the armor makes you have 0 hp

Deleted User 11/2/2019 1:24 AM
make it -1

Morticia [∞p] 11/2/2019 1:24 AM
it's literally negative

you die when you take any damage

Deleted User 11/2/2019 1:25 AM
ok

make the damage literally nothing

Morticia [∞p] 11/2/2019 1:31 AM
it only works for hp

Deleted User 11/3/2019 4:12 AM
we making anti piracy measures for armors now wtf

why cant people just pirate armor

Lyra 11/3/2019 12:03 PM
because it allows us to forcefully insert a currency

Lyra 11/3/2019 6:12 PM
so i implemented the antipiracy method into a kit, the kit only has the sword and key so far, but i've tested it and it works

Morticia [∞p] 11/3/2019 9:30 PM
where did you test it

Lyra 11/3/2019 11:00 PM
survival single player

Deleted User 11/4/2019 4:25 PM
You can remove locks so easily

Just copy the shulker box and a) Use blockdata to remove the lock NBT or b) Use NBTExplorer to remove it (personally, this method is easier).

And in addition, if the shulker box NBT data is so large and you remove the lock from it with the BlockData command, it will also kick the entire server because of how many characters appeared in chat; it overflew the limit.

Morticia [∞p] 11/4/2019 7:39 PM
nobody was talking about kicks?

Deleted User 11/7/2019 5:57 PM
the lock only worked on singleplayer for me
